Summary

Self-taught developer building autonomous multi-agent AI systems. Creator of JARVIS (24/7 personal multi-agent system) and an autonomous Polymarket trading bot. Strong in process automation with LLMs, IT support, and modern web/app stacks (Supabase, Twilio, Resend). EU citizen, B1 English, available for fully-remote async work.

Experience

The Fallow

WAITER / CASHIER / HOST

- Bilingual customer service (ES/EN) on floor and bar in high-volume environment.
- Cash handling and simultaneous payment processing while maintaining accuracy under pressure.
- Order coordination as part of a team during high-demand tourist shifts.

Ireland

Summer 2021

Projects

Creator

JARVIS

- Personal multi-agent system running 24/7 on Hetzner VPS with Telegram interface.
- 16 specialized agents (planner, researcher, code-reviewer, polymarket-handler...) with dynamic delegation via MCP.
- Stack: Go + Docker + React + Claude Max OAuth. Centralized skill injection (SKILLS-UNIVERSAL.md + role-bindings.yaml).

Go, Docker, React, Claude Max

2024 - present

Creator

POLYMARKET-BOT V6

- Autonomous Polymarket trading bot with cron */30 (scanner→brain→executor) and exit_monitor */5.
- P11 veto system with TradingView: filters crypto candidates when technical sentiment contradicts market thesis.
- Persistent memory: 500+ vetos registered, 75 losses analyzed for self-improvement.

Go, cron, TradingView API

2024 - present

Creator

OBSDIAN VAULT AUTOMATION

- Personal knowledge base with 2,000+ notes auto-generated by 6 crons (daily briefs, snapshots, agent orgchart).
- Real-time Telegram integration (multi-session export) and automated skills curator.

Python, cron, Markdown

2024 - present

Developer

WEB APPS WITH MODERN STACK

- Web/mobile apps with Supabase (auth + DB), Twilio (SMS/voice), Resend (transactional email).
- Frontends in React/Next.js + Tailwind, automated deploys.

Supabase, Twilio, Resend, Node

2024 - present
